2023 Melbourne to Hobart Westcoaster Notice of Race

About the Melbourne to Hobart race

The Melbourne to Hobart (Westcoaster) is a prestigious and challenging yacht race. It has a rich history, having surpassed its 50th-year milestone. The race covers 435 nautical miles and is considered a blue-water ocean classic. It is open to well-prepared yachts that can perform effectively in various wind and sea conditions.

The race starts with a 125 nm passage across the Bass Strait, a stretch of water between the Australian mainland and Tasmania. This passage can be affected by tides, and the yachts navigate through the gap between King Island and Northwest Tasmania, venturing into the vast Southern Ocean. From there, the fleet sails 200 nm south along Tasmania's West Coast before rounding Maatsuyker Island. The yachts then change direction, heading east to Southeast Cape and finally turning northeast towards the more sheltered waters of Storm Bay and the Derwent River, which leads them to Hobart.

The Southern Ocean segment of the race is known for offering spectacular sailing conditions, often characterized by reaching (sailing with the wind coming from the side) down the coast and running (sailing with the wind coming from behind) under spinnaker across the bottom of Tasmania. Long rolling swells originating in the deep south are a common feature of this part of the race.

The diversity of conditions throughout the race necessitates the use of handicapping systems to level the playing field for different yacht designs and performance capabilities. The challenging nature of the race also puts the seamanship and tactical skills of the crews to the test, making it a true test of sailing prowess. The ultimate prize for the victors is the prestigious yellow cap of the Westcoaster Racer.

Over the years, the Melbourne to Hobart Westcoaster has achieved an impressive safety record, with more than 900 yachts and over 7000 crew members successfully completing the event without major incidents. This achievement is credited to the excellent training programs provided by the Ocean Racing Club of Victoria (ORCV), effective race direction, and the competency of the participating crews.

The race holds significant importance within the ORCV's Offshore Championship, being the highest-ranking race in the series. It offers opportunities for full crews, "4 plus autohelm" (a crew of four with the assistance of an autohelm), or double-handed entries, catering to various sailing preferences and crew sizes.

The 2023 ORCV Melbourne to Hobart (Westcoaster) Yacht Race will be conducted on the waters of Bass Strait from a start at the entrance to Port Phillip Bay. Owners of eligible yachts are invited to enter this race under the conditions of this notice of race. The race is organised and conducted by the ocean racing club of victoria, inc with the co-operation of the Derwent Sailing Squadron.

ORCV acknowledges our sponsor Strait Link is supporting ORCV with transporting our Race Van and Container from Melbourne to Tasmania and return.
