

## *Multihull Yacht Club of Victoria*

### **Gavin Le Sueur: Seminar on Offshore Safety and Seamanship for Cruising and Racing Multihulls**

Sunday 25<sup>th</sup> May, 2-5 pm,

The Multihull Yacht Club of Victoria invites you to our seminar on offshore safety and seamanship for multihulls. The session will be presented by Gavin Le Sueur, the renowned multihull sailor and author of *Multihull Seamanship*.

Gavin is known throughout Australia and internationally for his knowledge and experience in multihull seamanship and safety for both cruising and racing. The meeting will be run as a seminar format, with plenty of opportunity for questions and discussion. The program will run from 2-5 pm (afternoon tea provided) on 25 May at Royal Melbourne Yacht Squadron, St Kilda. It will also include two short presentations on safety training (speaker from ORCV) and on the YA Special Regulations as applied to multihulls.

The seminar is open to everyone - you do not need to be a member of the MYCV - and is free. **If you are planning to cruise or race a multihull offshore or if you are thinking of purchasing a cruising multihull, this seminar will be invaluable.** Even if you have no plans to become a multihuller but are interested in how they handle offshore conditions, come and find out!

Further details will be put up as an Event on the Multihull Yacht Club of Victoria Facebook page (like us on Facebook!) closer to the time. And feel free to contact the Commodore Charles Meredith at [chasm200@bigpond.com](mailto:chasm200@bigpond.com) with any queries.
